

## FUTURE SITE OF THE POCKET PARK

the alley pocket park on grand avenue

Next summer the City of Cherokee is hoping to break ground on phase one of The Alley Pocket Park and we need your support! Phase one of construction will focus on the creation of alley parking, synthetic lawn green space, splash pad, perennial planter, and providing overall accessibility to the site. The full build out will expand upon the infrastructure of the design by adding site furnishings, lighting, and additional amenities. Phase one estimated cost is approximately \$135,000 and phase two is estimated at approximately \$133,000.
